

Safety Data Sheet according 1907/2006/EC (REACH), 2015/830/EU

Bloom Booster

Date: 01/05/2011 Version No. 3 Review date: 10/07/2019

1	SECTION 1: IDENTIFICA	ATION OF THE SUBSTANCE/ MIXTURE AND OF THE COMPANY/	
1	UNDERTAKING		
	Product identifier		
1.1	A. Product name:	BLOOM BOOSTER	
1.2	Relevant identified uses of the substance or mixture and uses advised against	Relevant identified uses of the substance or mixture:	
1.2	una ases aavisea agamse	Bloom Booster is a growth and flowering activator for plants in compliance with the	
		European regulation on organic agriculture No. 834/2007.	
		<u>Uses advised against:</u>	
		Any use not specified in this section or in section 7.3	
		Use Descriptor System (REACH): No data available (not applicable: IK).	
1.3	Details of the supplier of the	Details of the supplier of the safety data sheet	
	Supplier identification	Terra Aquatica Sarl (GHE)	
	Address	Route de Lectoure, 32500 Fleurance	
	Phone number	+33 (0)5 62 06 08 30	
	E-mail address	info@eurohydro.com	
1.4	Emergency telephone number		
	Medical services/ emergency services	15	
	Fire and rescue services	18	
1.4	Police	17

2	SECTION 2 : HAZARDS IDENTIFICATION		
2.1	Classification of the substa	nnce or mixture	

	Reg. 1272/2008/CLP	In accordance with Regulation No. 1272/2008 (CLP), the product is not considered dangerous (IK).	
	Additional information :		
	Hazards for humans	None	
	Enviromental hazards	None	
	Physico-chemical hazards	None	
	Other hazards	None	
	Labelling elements	None	
	Labelling according to Regula	ition (EC) No 1272/2008 [CLP]	
	Hazard pictograms		
2.2	Signal word	None	
	Hazardous substances to be	None	
	indicated on the label	None	
	Hazard statements H:	None	
	Precautionary statements P:	Phrases P	
2.3	Other hazards	P102 Keep out of reach of children	
2.3	Reg. 1272/2008/CLP	Maria	
		None	
3	SECTION 3 : COMPOSI	TION/INFORMATION ON INGREDIENTS	
3.1	Substances	Non applicable	
3.2	Mixtures Name Description	Bloom Booster	
3.2	Description	Bloom Booster is 100% organic growth and flowering activator for plants based on	
		plant extracts authorised by the EC standard on organic farming No. 834/2007.	
4	SECTION 4 : FIRST AID MEASURES		
	No known incidents of dar	nage to persons who have used this product.	
	However, in case of doubt	or if symptoms persist, seek medical attention. Do not give anything by mouth to an	
	unconscious person.		
4.1	Description of first aid measures		
	Following eye contact	Immediately flush eyes, including under the eyelids, with plenty of clean, clear water	
		for at least 15 minutes.	
	Following skin contact	Rinse thoroughly with water for at least 15 minutes. Remove contaminated clothing.	
		If the skin is red or puffy, or if irritation persists, consult a doctor.	
	Following ingestion	Do not give anything by mouth to an unconscious or convulsing person. If a person	
		has swallowed this product and is conscious, give small amounts of water to drink to	
		dilute the product. Call a doctor if adverse health effects occur.	
	Following inhalation	Under normal conditions of use, inhalation is unlikely. If inhaled, move to fresh air and	
		if necessary, assist breathing. In case of breathing difficulties, consult a doctor as	
		soon as possible.	
	Self-protection of the first aider	Depending on the first aid context, wear appropriate protective equipment including a	
	didei	mask or filtered respirator. Always wear protective gloves and a resuscitation mask in	
		case of artificial respiration. Wash hands thoroughly after first aid. If your clothing is	
		case of artificial respiration. Wash hards thoroughly arter first aid. If your clothing is	

	Other information	For Continuo de table of Content and advantational translation in the Continuo Content and
		For further details of first aid administration, including but not limited to more serious
		health effects, the doctor may consult the Toxicological Information Centre, hotline:
	Most insusatest summits	see section 1.4
4.2	Most important symptoms and effects, both acute	Bloom Booster can cause mild diarrhoea due to the enzymatic process with intestinal
	and delayed	bacteria, if ingested in large quantities or in concentrated form.
	Indication of any	No known data
4.3	immediate medical	
4.3	attention and special	
	treatment needed	
5	SECTION 5 : FIREFIGHT	TING MEASURES
5.1	Extinguishing media	The product is not flammable. Fire hazard low due to the flammability characteristics
		of the product under normal storage, handling and use conditions.
		Suitable extinguishing media for a surrounding fire:
		In the event of continued combustion, caused by improper handling, storage or use,
		the following extinguishing media may be used: carbon dioxide (CO2), foam, chemical
		powders, and in the event of a widespread fire, also water spray.
		Inappropriate extinguishing media:
		In case of fire, do not use: Water jet
5.2	Special hazards arising	Hazards due to the substance or mixture:
	from the substance or	Given its flammability characteristics, the product does not present a specific risk of
	mixture	fire or explosion under normal storage, handling and use conditions.
		Risk related to thermal decomposition products:
		A fire in the surrounding area will often produce thick black smoke. Exposure to
		compositional products may pose health risks. Do not breathe dust, vapours or fumes
		released by the combustion of products.
5.3	Advice for firefighters	Protective actions to be taken when fighting fires
		Quickly isolate the area by evacuating all persons from the area near the incident in
		the event of a fire. Do not take any action involving personal risk or in the absence of
		adequate training. Keep containers away from fire if it can be done without risk. Use
		water or spray to keep containers exposed to fire cool.
		Appropriate protective equipment
		The product is not combustible. In the event of a fire in the surrounding area,
		appropriate extinguishing media and protective equipment may be used for the other
		materials present (full protective clothing and personal respiratory equipment), in
		accordance with EN469 for a basic level of protection against chemical incidents. Have
		a minimum of emergency facilities or intervention elements (fire blankets, medicine
5.4	Other information	kit, etc.) in accordance with Directive 89/654/EC.
J. T	Other miorination	Special firefighting procedures: Keep cans away from the fire if it can be done safely.
		Fire can cause smoke or toxic gases. Firefighters must wear a mask with a closed-
		circuit breathing system and protective clothing and avoid contact with eyes or skin.
		Approach the fire with a braced wind. If large quantities of product are involved, do
		not use a hose with fittings. Be careful of water flows resulting from firefighting. Do
		not discharge fire-extinguishing material into drains or sewers.

6	SECTION 6 : ACCIDENT.	AL RELEASE MESURES
6.1	Personal precautions, prote	ective equipment and emergency procedures
	For non-emergency personnel	Ensure proper ventilation. Wear gloves and safety glasses to avoid stains or risk of splashing.
	For emergency responders	Workers will be equipped with personal protective equipment appropriate to the possible hazards. (See section 8)
6.2	Environmental precautions	The product is biodegradable. However, avoid contamination of sewers, surface water and groundwater. If this happens, inform the competent authorities.
6.3		
	For containment:	Sewer coverage
	For cleaning up:	Collect the spilled product by mechanical means and remove any residues by water jets. Provide adequate ventilation at the location of the spill. The disposal of the contaminated material must be carried out in accordance with the provisions of point 13.
	Other information:	Do not put the spilled product in contact with combustible or incompatible materials. Cleaning personnel must wear equipment to protect skin and eyes. Small amounts of product can be moped with inert, non-combustible materials such as sand or soil. These materials must then be placed in appropriate containers. Do not dispose of in gutters or sewers. Do not discard any residue.
6.4	Reference to other sections	Collect the remains in an identified container: see point 13 for disposal. Personal protective equipment: see section 8 Withdrawal considerations: see section 13. See section 1 for emergency contact information.
7	SECTION 7 : HANDLING	AND STORAGE
7.1	Precautions for safe handling	Avoid formation of suspended particles and dispersion of the product in the air. Provide adequate ventilation in areas where suspended particles develop. Keep away from flames and sparks. Do not smoke. Keep away from heat and other sources of fire. Do not eat, drink or smoke in work areas. Wash hands after each use.
7.2	Conditions for safe storage, including any incompatibilities	Ensure adequate local ventilation or extraction. Store in a cool, dry place. Keep container tightly closed in a dry, well-ventilated place. Close containers before and after each use to avoid sources of moisture or heat. Store in areas with waterproof pavement.
7.3	Specific end use(s)	No specific end uses. Good practices: keep in closed containers. Close containers before and after each use to avoid sources of moisture or heat. Store in areas with waterproof pavement. The ingredients may lose their effectiveness if the product is stored in a too hot place, also avoid temperatures below -15°C.

8	SECTION 8 : EXHIBITIO	N CONTROLS/INDIVIDUAL PROTECTION
0.1	Control parameters	Not applicable
8.1		Use good industrial hygiene practices.
8.2	Exposure controls	
	Appropriate engineering controls	No particular control
	Individual protection measures, such as personal protective equipment	Use individual protections placed on the market in accordance with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016. Personal protective equipment must be adapted to the risk, kept clean and properly maintained in accordance with the provisions of the Labour Code.
	Eye/face protection	It is necessary to wear safety glasses that comply with the NF EN166 standard before handling any products to avoid risks of splashing.
	Skin protection	Hands: Wear suitable protective gloves in case of prolonged or repeated contact with the product to avoid stains. Use suitable chemical-resistant protective gloves in accordance with NF EN374.
	Respiratory protection	Ensure adequate ventilation, especially in enclosed areas. Respiratory protection device not required.
	Body protection	Wear appropriate protective clothing. After contact with the product, all soiled body parts should be washed.
	Environmental exposure controls	No data available. Biodegradable product
9	SECTION 9 : PHYSICAL	AND CHEMICAL PROPERTIES
9.1	Information on basic physi	ical and chemical properties
	Appearance	Physical state: all Bloom Booster compounds are in aqueous solution. Color: Dark Brown
	Odour	
	pH	Sulphur 4.90

	No other information	
10	SECTION 10 : STABILIT	V AND REACTIVITY
10	SECTION 10. STABILIT	I AND REACTIVITI
10.1	Reactivity	Stable. No particular risk of reaction with other materials under normal conditions of use.
10.2	Chemical stability	Bloom Booster is stable at room temperature in closed packages and under normal storage and handling conditions. No hazardous polymerization can be produced by any of these components
10.3	Possibility of hazardous reactions	No risk of dangerous reactions under normal use and storage conditions.
10.4	Conditions to avoid	No special conditions to avoid.
	Incompatible materials	No specific data.
10.5		
10.6	Hazardous decomposition	Under normal storage and use conditions, no hazardous decomposition products
10.0	products	should occur.
11	SECTION 11 : TOXICOLOGICAL INFORMATION	
11.1	Information on toxicologic	al effects
	a) acute toxicity; (b) skin corrosion/irritation; (c) serious eye damage/irritation; (d) respiratory or skin sensitisation; (e) germ cell mutagenicity; (f) carcinogenicity; (g) reproductive toxicity; (h) STOT-single exposure; (i) STOT-repeated exposure; (j) aspiration hazard	No known health damage resulting from exposure to the product. No known toxicological effects
	Symptoms related to the physical, chemical and toxicological characteristics	Ingestion: May potentially cause mild diarrhoea if ingested in large quantities or in concentrated form. Inhalation: unlikely route of exposure under normal conditions of use. No known significant effects or critical hazards. Skin Exposure: No known significant effects or critical hazards. Wash down with water.
	Delayed and immediate	Eye exposure: Slight irritation possible. No known significant effects or critical hazards. Wash down with water. No known effect
	effects as well as chronic effects from short- and long-term exposure	INO MIOWIT CITECT
	Interactive effects	No data available

	Absence of specific data	No data available
	Mixtures	
	Mixture versus substance	No data available
	information	Mixture not containing substances subject to registration.
		No known adverse effects or symptoms resulting from exposure to the mixture or its
	Oth on information	components.
	Other information	Comply with good industrial hygiene practices
12	SECTION 12 : ECOLOGIC	CAL INFORMATION
12.1	Toxicity	Not known risks.
12.2	Persistence and degradability	Biodegradable product.
12.3	Bioaccumulative potential	No data available to date to the best of our knowledge. Biodegradable product.
12.4	Mobility in soil	No data available to date to the best of our knowledge. Biodegradable product.
12.5	Results of PBT and vPvB assessment	No data available to date to the best of our knowledge
12.6	Other adverse effects	No data available to date to the best of our knowledge
13	SECTION 13 : DISPOSAL	CONSIDERATIONS
	Waste treatment methods	
	waste treatment methods	Do not discharge into sewers or waterways.
		Waste: Waste management is carried out without endangering human health and
		without harming the environment, including without creating a risk to water, air, soil,
		fauna and flora.
		Recycle or dispose of in accordance with current legislation, preferably by an
13.1		approved collector or company.
		Disposal of the product/packaging: it is prohibited to discharge it into sewers or
		waterways. Residues and empty containers must be handled and disposed of in
		accordance with the relevant local/national legislation in force.
		Follow the provisions of Directive 2008/98/EC on waste management.
		Recover the product as much as possible. Follow local legislation.
	Waste codes / waste	Not applicable
	designations according to LoW:	
14	SECTION 14 : TRANSPO	RT INFORMATION
	Non-hazardous transport. In t	the event of an accident and product spillage, proceed as described in point 6
14.1	UN number	Non-hazardous transport
445	UN proper shipping name	Non-hazardous transport
14.2		•

		This safety data sheet complies with the requirements established by Regulation
		830/2015/EU. It does not in any way exempt the user from knowing and applying all
		the documents that govern his activity. The user will take under his responsibility the
		precautions related to the specific use of the product. All the regulatory requirements
		mentioned are intended simply to assist the recipient in fulfilling their responsibilities.
		This list should not be considered exhaustive. This sheet supplements the technical
		operating instructions but does not replace them. The information contained herein is
		based on our knowledge of the product on the date indicated. They are given in good
		faith. In addition, the user's attention is drawn to the possible risks involved when a
		product is used for purposes other than those for which it was created. The addresses
		must ensure that he is not responsible for anything else according to texts other than
		those mentioned.
		This safety data sheet has been prepared by Terra Aquatica on the basis of its current
		knowledge (manufacturer's active ingredient safety data sheet and other bibliographic
		data).
		The information describes the safety aspects of the product. They are not intended to
		guarantee specific properties.
		It is the responsibility of our customers to comply with the regulations in force.
