

Safety Data Sheet according 1907/2006/EC (REACH), 2015/830/EU

TriPart Micro Hard Water

Date: 01 January 2008

Version No. 4

Review date: 01 February 2020

1	SECTION 1: IDENTIFICATION OF THE SUBSTANCE/ MIXTURE AND OF THE COMPANY/		
	UNDERTAKING		
	Product identifier		
1.1	Product name:	TRIPART MICRO HARD WATER	
1.2	Relevant identified uses of the substance or mixture	Relevant identified uses of the substance or mixture:	
1.2	and uses advised against	TriPartMicro Hard Water is a mixture of mineral salts formulated and mixed in proportions that	
		ensure optimal plant nutrition.	
		<u>Uses advised against:</u>	
		Any use not specified in this section or in section 7.3	
1.3	Details of the supplier	Use Descriptor System (REACH): No data available (not applicable).	
	Supplier identification	Général Hydroponics Europe	
	Address	4, boulevard du Biopole 32500 FLEURANCE	
	Phone number	+33 (0)5 62 06 08 30	
	E-mail address	info@eurohydro.com	
1.4	Emergency telephone	number	
	Medical services/ emergency services	15	
	Fire and rescue services	18	
	Police	17	
1.4	EU Emergency call line	112	
	Toxicological Information Centre ORFILA (INRS)	01 45 41 59 59	
	Toxicological Information Centre South West	05 61 77 74 47	
2	SECTION 2 : HAZAR	RDS IDENTIFICATION	
2.1	Classification of the su	ubstance or mixture	

2.1 Classification of the substance or mixture

Reg. 1272/2008/CLP

In accordance with Regulation No. 1272/2008 (CLP), the product is not considered dangerous.

Additional information :

Hazards for humans	None
Enviromental hazards	None
Physico-chemical hazards	None
Other hazards	None

Labelling elements

Labelling according to Regulation (EC) No 1272/2008 [CLP]

Hazard pictograms	None
Signal word	None
Hazardous substances to be indicated on the label	None
Hazard statements H:	None
Precautionary statements P:	Phrases P P102 Keep out of reach of children

2.3 Other hazards Reg. 1272/2008/CLP

2.2

None

SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS 3 3.1 Substances Non applicable Mixtures TRIPART MICRO HARD WATER 3.2 Name Description TriPart Micro HardWater is a specially formulated mixture of chemicals that are blended in proportions that ensure optimal plant nutrition. The chemical identity of the compounds and the exact proportions used in the blend are a trade secret; however, they are derived from : Potassium nitrate, magnesium nitrate, nitric acid, copper nitrate, ammonium sulphate, ammonium nitrate, potassium borate, iron EDDHA chelate, manganese and zinc EDTA chelates, sodium molybdate, calcium nitrate and cobalt sulphate. Concentration (%) N°CAS Chemical name Ammonium nitrate ≥10 - ≤25 6484-52-2 Calcium ammonium ≥5 - ≤10 15245-12-2 nitrate

SECTION 4 : FIRST AID MEASURES 4

No known incidents of damage to persons who have used this product.

However, in case of doubt or if symptoms persist, seek medical attention. Do not give anything by mouth to an unconscious person. The general measures described below should be adopted:

4.1	Description of first aid measures	
	Following eye contact	Wash immediately with plenty of water, keeping the eyelids wide apart and consult a specialist.
	Following skin contact	Rinse thoroughly with soapy water. Remove contaminated clothing.
	Following ingestion	Do not induce vomiting, seek medical attention immediately by showing the product label.

	Following inhalation	Move victim to fresh air. Keep warm and at rest. In case of breathing difficulty: call a doctor.
	Self-protection of the first aider	Depending on the first aid context, wear appropriate protective equipment including a mask or filtered respirator and, if necessary, operate in the presence of another co-worker. Always wear protective gloves and a resuscitation mask in case of artificial respiration. Wash hands thoroughly after giving first aid. If your clothing becomes contaminated with a chemical during
	Other information	first aid procedures, change it. For further details of first aid administration, including but not limited to more serious health effects, the doctor may consult the Toxicological Information Centre, hotline: see section 1.4
4.2	Most important symptoms and	Potential acute health effects:
	effects, both acute and delayed	No known effect / no data are available.
	and delayed	Signs/symptoms of overexposure:
		No specific data.
	Indication of any	In case of inhalation of decomposition products in a fire, symptoms may be delayed. The
4.3	immediate medical	exposed person may need to be kept under medical surveillance for 48 hours.
4.5	attention and special	
	treatment needed	
5	SECTION 5 : FIREFI	GHTING MEASURES
	Extinguishing media	The product is not flammable. Fire hazard low due to the flammability characteristics of the
		product under normal storage, handling and use conditions.
		Suitable extinguishing media:
		In the event of continued combustion, caused by improper handling, storage or use, the
		following extinguishing media may be used: carbon dioxide (CO2), foam, chemical powders,
5.1		following extinguishing media may be used: carbon dioxide (CO2), foam, chemical powders, and in the event of a widespread fire, also water spray.
5.1		
5.1		and in the event of a widespread fire, also water spray.
5.1	Special hazards arising	and in the event of a widespread fire, also water spray. Inappropriate extinguishing media: In case of fire, do not use: Water jet
5.1	Special hazards arising from the substance or	and in the event of a widespread fire, also water spray. Inappropriate extinguishing media:
5.1		and in the event of a widespread fire, also water spray. Inappropriate extinguishing media: In case of fire, do not use: Water jet Hazards due to the substance or mixture:
5.1	from the substance or	and in the event of a widespread fire, also water spray. Inappropriate extinguishing media: In case of fire, do not use: Water jet Hazards due to the substance or mixture: Given its flammability characteristics, the product does not present a specific risk of fire or
_	from the substance or	and in the event of a widespread fire, also water spray. Inappropriate extinguishing media: In case of fire, do not use: Water jet Hazards due to the substance or mixture: Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions.
_	from the substance or	and in the event of a widespread fire, also water spray. Inappropriate extinguishing media: In case of fire, do not use: Water jet Hazards due to the substance or mixture: Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions. Risk related to thermal decomposition products:
_	from the substance or	and in the event of a widespread fire, also water spray. Inappropriate extinguishing media: In case of fire, do not use: Water jet Hazards due to the substance or mixture: Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions. Risk related to thermal decomposition products: A fire in the surrounding area will often produce thick black smoke. Exposure to compositional

Do not breathe dust, vapours or fumes released by the combustion of the products. Decomposition products may include the following materials: Carbon dioxide Carbon monoxide Nitrogen oxides Metal oxide / metal oxides Protective actions to be taken when fighting fires Quickly isolate the site by evacuating all persons from the area near the incident in case of fire.

5.3		Appropriate protective equipment
		The product is not combustible. In the event of a fire in the surrounding area, appropriate
		extinguishing media and protective equipment may be used for the other materials present (full
		protective clothing and personal respiratory equipment), in accordance with EN469 for a basic
		level of protection against chemical incidents. Have a minimum of emergency facilities or
		intervention elements (fire blankets, medicine kit, etc.) in accordance with Directive 89/654/EC.
	Other information	Additional provisions:
		Respond in accordance with the Internal Emergency Plan and the Fact Sheets on Accident and
		Other Emergency Response. Remove all sources of ignition. In case of
5.4		fire, refrigerate containers and storage tanks for products that may ignite and explode as a
••••		result of high temperatures. Avoid spilling products used to extinguish the fire in the aquatic
		environment.
-		

SECTION 6 : ACCIDENTAL RELEASE MESURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

^y Ensure good ventilation.

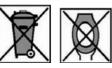

In case of accidental release of a large quantity, evacuate all personnel and allow access only to trained operators with appropriate personal protective equipment. (See section 8)

Responders will be equipped with appropriate personal protective equipment. (See section 8)

For emergency responders

6.2

Environmental precautions

Avoid contamination of soil, sewers, surface water and groundwater. If this happens, inform the competent authorities.

Methods and material for containment and cleaning up

6.3	For containment:	Sewer coverage
	For cleaning up:	Mechanically collect the spilled product and remove any residues by water jets. Provide adequate ventilation at the location of the spill. Contain and collect spillage with non-
		combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place
		in container for disposal according to local regulations (see Section 13). Dispose of via a
	Reference to other sections	licensed waste disposal contractor The disposal of the contaminated material must be carried
6.4		out in accordance with the provisions of point 13.
		Collect the remains in an identified container: see point 13 for disposal.
		Personal protective equipment: see section 8
		Withdrawal considerations: see section 13.
		See section 1 for emergency contact information.

SECTION 7 : HANDLING AND STORAGE

Precautions for safe handling	Avoid formation of suspended particles and dispersion of the product in the air.
•	Provide adequate ventilation in areas where suspended particles develop.
	Keep away from flames and sparks. Do not smoke. Keep away from heat and other sources

7

		of fire.
		Do not eat, drink or smoke in work areas.
	Conditions for safe storage, including any incompatibilities	Wash hands after each use.
		Ensure adequate local ventilation or exhaust.
		Store container upright, tightly closed in a cool, dry, well-ventilated place.
7.2		Close containers before and after each use to avoid sources of moisture or heat. Store in
	Specific end use(s)	labelled bottles.
		Store in waterproof areas if possible.
7.3		No specific end uses.
		Good practices: keep in closed containers. Close containers before and after each use to avoid
		sources of moisture or heat. Store in areas with waterproof pavement.

8	SECTION 8 : EXHIBITION CONTROLS/INDIVIDUAL PROTECTION		
8.1	Control parameters	Not applicable	
	F	Use good industrial hygiene practices.	
8.2	Exposure controls		
	Appropriate engineering controls	No particular control. Good general ventilation should be sufficient to control workers' exposure	
		to airborne contaminants.	
	Individual protection measures, such as	Use personal protective equipment placed on the market in accordance with the provisions of	
	personal protective	Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016.	
	equipment	Personal protective equipment must be adapted to the risk, kept clean and properly maintained	
		in compliance with the provisions of the Labour Code.	
	Eye/face protection	It is necessary to wear protective glasses in accordance with NF EN166 before handling any	
		chemical products.	
	Skin protection	Hands: Wear suitable protective gloves in case of prolonged or repeated contact with the	
		product.	
		Use suitable chemical-resistant protective gloves in accordance with NF EN374.	
		Appropriate footwear and any additional skin protection measures should be selected based on	
		the task being performed and the risks involved and should be approved by a specialist before	
		handling this product.	
	Respiratory protection	Ensure adequate ventilation, especially in enclosed areas.	
	Body protection	Wear appropriate protective clothing.	
		After contact with the product, all parts of the body that have been in contact with the product	
		must be washed.	
Environmental exposure No data available.		No data available.	

SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

9

Appearance	Physical state: All TriPartMicro Hard Water compounds are in aqueous solution (liquid)	
	Color: (dark) brown.	
Odour	No odor	
рН	5.6	
Melting point	Not Applicable	
Freezing point	-1.11°C (30°F)	
Initial boiling point and boiling range	102.778°C (217°F)	

Flash point	Not applicable
Evaporation rate	Not applicable
Flammability (solid, gas)	Non inflammable
Upper/lower flammability or	Not applicable
explosive limits Vapour pressure	Not determined
Vapour density	Not determined
Relative density	1.108
Solubility(ies) 20°C	Entirely Soluble
Partition coefficient: n-octanol/water	Not determined
Auto-ignition temperature	Not determined
Decomposition temperature	Not determined
Viscosity	Not determined
Explosive properties	None
Oxidising properties	None
Refraction index	Not determined
Rotary power	Not determined

9.2 Other information No other information

10 SECTION 10 : STABILITY AND REACTIVITY

10.1	Reactivity	No specific reactivity test data are available for this product or its components in normal
1011		conditions of use.
10.2	Chemical stability	The product is stable at room temperature in closed packages and under normal storage and
		handling conditions.
		No hazardous polymerization can be produced by any of these components
10.3	Possibility of	No risk of dangerous reactions under normal use and storage conditions.
	hazardous reactions	
10.4	Conditions to avoid	No special conditions to avoid. Comply with usual precautionary practices regarding chemicals.
	Incompatible	TriPart Micro Hard Water contains elements that are powerful oxidants that can react with
10.5	materials	strong bases to release ammonium. It can also react with powerful reducers.
10.6	Hazardous	Under normal conditions of storage and use, hazardous decomposition products should not be
	decomposition	produced.
	products	

11 SECTION 11 : TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

a) acute toxicity;

Product/ingredient name	Result	Species	Dose	Exposure
Ammonium nitrate Ammonium sulfate Urea	LD50 Oral LD50 Oral	Rat Rat	2217 mg/kg 4715 mg/kg	-
(b) skin corrosion/irritation;	Most of the chemicals i	n the TriPart Micro Hard	Water are toxic by inges	tion, inhalation, or eye

		or skin contact.			
 (c) serious eye damage/irritation; (d) respiratory or skin sensitisation; (e) germ cell mutagenicity; (f) carcinogenicity; (g) reproductive toxicity; (h) STOT-single exposure; (i) STOT-repeated exposure; (j) aspiration hazard Symptoms related to the physical, chemical and toxicological characteristics 		No data available			
	Delayed and immediate effects as well as chronic effects from short- and long- term exposure	No known health effects			
	Numerical measures of toxicity	Route	Estimated Acute Toxicity Valu	ie	
	,	Oral	12191.4mg/kg		
	Interactive effects	No data available			
	Absence of specific data Mixtures	No data available			
	Mixture versus	No data available			
	substance information	Mixture not containing substances subject to registration.			
		No known adverse effects or symptoms resulting from exposure to the mixture or its			
Other information		components.			
10	SECTION 12 - ECOL	Comply with good industrial hygiene p			
12		OGICAL INFORMATION			
12.1	Toxicity	No known significant effects or critical	hazards.		
	Product/ingredient name	Result	Species	Exposure	
	Ammonium nitrate	Chronic NOEC 6 to 12 mg/L Fresh water	Crustaceans - Cladocera Crustaces	21 days	
12.2	Persistence and degradability	There is no data available.			
12.3	Bioaccumulative potential	There is no data available.			
12.4	Mobility in soil	No data available to date to the best of our knowledge. Waste generation should be avoided or			
		minimized as much as possible, and the	ne product should not be discharged into	o sewers or	
12.5	Results of PBT and	waterways.			
	vPvB assessment	There is no data available.			
12.6	Other adverse effects	No known significant effects or critical	hazards.		

	Waste treatment methods	TriPart Micro HardWater can be disposed of as you would any industrial fertilizer.
		Do not flush to sewers or waterways.
		Waste: Waste management is done without endangering human health and without harming
		the environment, including but not limited to water, air, soil, flora and fauna.
13.1		Recycle or dispose of in accordance with current legislation, preferably by a licensed collector
		or company.
		Disposal of the product/packaging: Disposal into sewers or waterways is prohibited. Residues
		and empty containers must be handled and disposed of in accordance with the relevant
		local/national legislation in force.
		Follow the provisions of Directive 2008/98/EC on waste management.
		Recover the product as far as possible. Follow local legislation.
	Waste codes / waste designations according to LoW:	Not applicable
14	SECTION 14 : TRANSPORT INFORMATION	
	Non-hazardous trans	sport. In the event of an accident and product spillage, proceed as described in point 6

Non-hazardous transport. In the event of an accident and product spillage, proceed as described in point 6

14.1	UN number	Not regulated. Non-hazardous transport
14.2	UN proper shipping name	Non-hazardous transport
14.3	Transport hazard class(es)	Non-hazardous transport
	ADR IMDG	Not regulated. Non-hazardous transport
	OACI/IATA	
14.4	Packing group	Non-hazardous transport
14.5	Environmental	Non-hazardous transport
	hazards	
	Special precautions	Non-hazardous transport
14.6	for user Transport in bulk	
14.7	Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	Non-hazardous transport
15	SECTION 15 : REG	JLATORY INFORMATION
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixture	
	Reg. 1272/2008/CE	The product does not contain substances that can be classified as carcinogenic. 1 or 2 according to Reg.1272/2008/EC and subsequent updates.
	Reg. 830/2015/CE (REACH)	Not applicable
	Special hazards	None
15.2	Chemical safety assessment	Evaluation not carried out

16 SECTION 16 : OTHER INFORMATION

	Abbuenistic	
	Abbreviations and acronyms:	ETA = Acute Toxicity Estimation
		CLP = Regulation 1272/2008/EC on classification, labelling and packaging of substances and
		mixtures
		DNEL = Derived no-effect dose
		DMEL = Derived no-effect dose
		EUH = Specific hazard statement CLP
		CPSE = Predicted no-effect concentration
		RRN = REACH registration number
		PTB = Persistent, Toxic and Bioaccumulative
		tPtB = Very persistent and very bioaccumulative

		Version :4
		Change: Section 5.3, 7.2.
16.4	Note	The indicated mixture does not require an SDS according to the REACH requirements. This
		sheet is for information purposes only.
		This safety data sheet complies with the requirements set out in Reg. 830/2015/EU. It does not
		exempt the user from knowing and applying all the documents that govern his activity. The
		user will take under his responsibility the precautions related to the specific use of the product.
		All the regulatory requirements mentioned are simply intended to help the recipient to assume
		his responsibilities. This list should not be considered exhaustive. This data sheet supplements
		the technical instructions for use but does not replace them. The information in this safety data
		sheet has been compiled by GHE on the basis of its current knowledge (safety data sheet for
		the active ingredients compiled by the manufacturer and other bibliographical data) as of the
		date indicated. It is given in good faith. In addition, the user's attention is drawn to the
		possible risks involved when a product is used for purposes other than those for which it was
		created. The recipient must ensure that he is not liable for anything other than what is stated

in the texts other than those mentioned.

The information describes the safety aspects of the product. It is not intended to guarantee specific properties.

It is the responsibility of our customers to observe the applicable regulations.
